*Fine Drycleaning Since 1933*

## **R&R Fabricare take the health of our planet seriously.**

At R&R Fabricare we are continually searching for sustainable ways of doing business. We consider environmental impact when purchasing all supplies and equipment. For example:

- Oxo-biodegradable plastic garment covers,
- Re-usable garment and blanket bags,
- Recycled steel in coat hangers,
- Recycle and re use our water where possible,
- Latest dry cleaning and washing machine technology. Our machines use less energy and are partly constructed from recycled materials,
- Our waste product is collected by a licensed contractor,
- Low energy lighting used in stores where possible.
